

CONFIDENTIAL

5 July 1955

MEMORANDUM FOR: Chief, TSS/Engineering Division

SUBJECT : Special Devices Desired for Operational Testing

1. It would be appreciated if you will, through TSS/Admin/Logistics Branch, make the following items available to Branch IX, Local 1819:

30 ea - Incendiary Heads for the A. C. Delay

10 ea - Firing Device, 24-hour Clockwork.

2. The items will be utilized in operational experimentation and you will be afforded copies of all performance reports.

3. With regard to the 24-hour clock, you will recall our discussion pertaining to an additional adapter for the unit which will permit its use for triggering electrical circuits. It appears to us that a modification of this nature will prove very valuable over and above the fact that the unit may then be useful as an accurate replacement for the Electric Switch Time Pencil.

Joe + Andy - for nec
action pls.
Andy - note special
par. 3. Jerry had mentioned
this to me before and
I think we should
try to accomplish this
Thanks.

WE.

Joe - suggest you
keep carbon copy for
your files and pass
original on to Andy.
7 July 55 WE

Talked to Jerry,
he is in no hurry and
will wait for the instruction
sheet to be printed before
testing them YH.

OK WE
